

# WeLive Foundation

## About Us

WeLive Foundation, a Bengaluru-based NGO established in November 2019, aims to assist young adults transitioning from child care institutions at the age of 18. Recognizing the challenges they face, WeLive provides a 1-3 years Residential Bridge Program, equipping them with essential life skills, mental resilience, physical health, and the confidence to integrate into society.

Currently, WeLive operates three centres, catering to around 60 young individuals who actively engage in education, work, and decision-making, working part-time or full-time alongside their educational and skill-building programs. The foundation strives to empower these young people, enabling them to lead fulfilling, secure, and meaningful lives.

# The Progress

## FRESH BEGINNINGS: MOVING TO A NEW CENTRE

WeLive is thrilled to announce its relocation of its Men's centre in Bangalore from New Tippasandra, Indiranagar to Sadananda Nagar, Tower Building. This new centre embarks a new and fresh beginning for all the people staying there while continuing to support and encourage them.

## SPORTS EVENTS

The sports events that were organised for the residential young men and women included the alumni as well. It allowed the current members and passed out members to engage as a community and have loads of fun playing in teams.

## OUTREACH DELHI

An extensive outreach program was conducted in Delhi which involved the activities that promoted and engaged various child care institutions like Samparpan Foundation, Rainbow Foundation, and Prayas Home. The primary goal of the outreach was to build strong networks with the CCIs and by the end, you could say the the foundation achieved their goal.

# The Progress

## TRANSITION MODULE: COMPLETION OF PHASE 1

The first phase of the transition module, which involved providing exposure to children from CCIs between the ages of 16 to 18, was a success. The module included various activities such as visits to the post office and bank, career workshops focusing on resume building and opportunities in the public sector job market, and cultural visits to places like Rangoli Park. The positive response from Karnataka-based care leavers has been encouraging, with 4-5 young individuals set to join our bridge program.

## THE CHENNAI CENTRE

Our Chennai Centre welcomed seven young women. They seamlessly integrated into the skill training centre, and four of them have already embarked on their professional journeys.

# Show your Support!

As we strive to continue our mission of empowering care leavers, we invite mentors, volunteers, and employers to join us in making a difference. Here are a few ways you can help us through:

- **Mentoring:** Share your expertise and life experiences by becoming a mentor for our YPs and provide guidance, support, and advice as they navigate their journey toward independent living.
- **Volunteer Opportunities:** Contribute your time and skills by volunteering with us. Whether it's organizing workshops, helping our YPs and program, or assisting with events, your involvement can have a profound impact on the personal and professional growth of our YPs and the program.
- **Skills Training:** Help equip our YPs with essential skills by offering skilling programs in areas such as communication, financial literacy, job readiness, and personal development.
- **Employment Opportunities:** Create employment opportunities or internships within your organization for our YPs. By providing them with real-world work experiences, you can support their transition into the professional world and foster their independence.
- **Donation:** Your donations will help us sustain and expand our programs. To donate, visit our website: <https://welivefoundation.org.in/donation>.
